## **HEADLICE**

**Please remember to check your children's hair and all members of the family for head lice on a regularly basis and treat if live lice are found.**

□ It is best to check for head lice using a comb made for the purpose, ideally white so they can be easily seen and with teeth no more than 0.3mm apart in order to trap head lice

□ Combing through the hair when wet, or after applying a conditioner, may make the process more comfortable

□ Good lighting is important and so is comfort

Treatment should only be applied if a living, moving louse is found – never 'just in case'. **If treating the hair, do not forget to apply a 2<sup>nd</sup> treatment the following week.** Continue to check for head lice on a regular, weekly basis – **ONCE A WEEK, TAKE A PEEK**
